

Application No. 10/796,228
Reply to Office Action of November 6, 2006

Docket No.: 65079-0086

REMARKS

Applicants have reviewed the office action dated November 6, 2006, and thanks Examiner Psitos for the detailed review of the pending claims.

Claims 1 – 37 were pending in the application. No claims have been added or cancelled. Accordingly, claims 1 – 37 remain pending. Applicant thanks Examiner for indicating that claims 1 – 37 contain allowable subject matter. The Examiner objected to claims 34 – 37 due to informalities, and indicated that the claims will be allowable when these informalities are overcome. Accordingly, Applicant has amended claim 34. Applicant believes the amendment places the claims in condition for allowance. Examiner further objected to the title of the application as being nondescriptive. Accordingly, Applicant has amended the title to overcome the objection. In view of the above amendments, Applicant believes the pending application is in condition for allowance.

Objection to Claims 34 – 37

Examiner objected to claims 34 – 37. Examiner noted that “the ultimate means for combining cannot perform the recited function since there is no source of a spindle error signal.” Accordingly, applicant has amended claim 34 to include a source of a spindle error signal. Applicant believes the amendment places the claim in condition for allowance. Claims 35 – 37 are also allowable as being dependent on an allowable base claim.

Title

Examiner objected to the title as not being descriptive. Accordingly, Applicant has amended the title to be more fully descriptive.
